Guaranteed Solutions for Your Gas Processing Needs

Incepted in the year 2003, **Airro Engineering Company** is one of the prominent organizations engaged in manufacturing, supplying and exporting of industrial plants and equipment like industrial filters, industrial heat exchangers, ammonia cracking units, exo gas generators, gas exchangers, gas generators, compressed air / gas drying system, pressure vessels and others. Supported by state-of-the-art manufacturing unit along with in-house quality and research and development department we have been able to offer the equipment that is at par with international standard. We are supported by a dedicated team whose ardent effort helps us in offering qualitative range of industrial process equipment and gas exchangers in stipulated time frame. To augment the expediency of our clients and to optimize the performance of our efficient equipment, we have garnered a wide servicing network across the globe. Creating new benchmarks of brilliance in the industry; we have reached at this position under the supervision of our mentor **Mr. J P Sharma**. His years of industrial experience in the field of process equipment and others have enabled us to conduct our business operations as per changing need of the clients.

Our Vision

Airro Engg Co. envisions the nurture of knowledge among its employees, convenience for its customer and a state of wellbeing for the society.

Our Mission

Airro Engg Co. propels forward with the mission to translate its relentless proclivity to serve only the best of quality and experience.

Our Products

PSA Nitrogen Plants

PSA Oxygen Gas Plants

Air Separation Plants

Filter and Moisture Separators

Gas Generators

Carbon Molecular Sieves

Hydrogen Plant

Heat Reactivated Type Dryers

Tube and Shell Heat Exchangers

Heat Compression Type Dryers

Control Valves

Low Pressure Air Dryers

Our Valuable Clients

Airro Engineering Co.
